1. Account Registration

1.1. Create PAG Account

1. Go to <https://apply.pag.hkpc.org>, the PAG website and click “Apply” button at the bottom of page and then click the “Register” button at the bottom of the “Sign On” box.
2. Complete the onscreen fields in the Registered Account form.
3. Click “Register” button.
4. An email will be sent to your email address for email verification.
5. Click the link in the verification e-mail that's automatically sent to complete the Account Registration process. The email link will be valid within 7 days of the account registration request was made.

The screenshot displays the 'Patent Application Grant' website interface. At the top, there is a navigation menu with links for 'INTRODUCTION', 'FAQ', 'CONTACT US', '繁體', and 'SIGN ON'. Below the navigation, there is a breadcrumb trail 'Introduction > Sign On' and a 'Login' heading. The main content area features a 'Sign On' form with input fields for 'Email', 'Password', and 'Captcha'. A large red 'b7 ap' logo is displayed below the form, with a 'Forgot password' link. A blue 'Sign On' button is positioned below the form. Below the 'Sign On' button, there is an 'Or' separator and a grey 'Register' button, which is highlighted with a red rectangular border. A red arrow points from the text 'Apply PAG Account' to the 'Register' button. At the bottom of the page, there is a dark blue footer containing contact information: 'Contact Phone No.: (852) 2783 5958', 'Email: ipsc@hkpc.org', and a 'Privacy Policy' link. The footer also includes the logos for the 'Innovation and Technology Commission' and 'hkpc', along with the copyright notice 'Copy Right © 2021 Hong Kong Productivity Council'.

1.2. Login

1. Go to <https://apply.pag.hkpc.org> the PAG website and click “Apply” button at the bottom of page or click the “SIGN ON” menu at the top menu bar.
2. Fill in your registered Email, Password, and the Captcha Code.
3. Click “Sign On” button.
4. You can get an email with 4 digits verification code.
5. Click “Submit” button

1.3. Logout

1. Click the “Logout” at the top menu.

The screenshot shows the user interface for 'Patent Application Grant'. At the top, there is a navigation menu with links for INTRODUCTION, FAQ, CONTACT US, 繁 簡, MY APPLICATIONS, and LOG OUT. The 'LOG OUT' button is highlighted with a red box, and a red arrow points to it with the text '1. Click log out'. Below the navigation menu, there is a section for 'Application Timeline' with an 'Update Profile' button. A timeline shows 'Today' as the current point. Below this, there is a 'Terms & Conditions' button. Two main action cards are visible: 'My Application Records' with a 'View' button and 'New Application' with an 'Add' button. Below these cards is a 'Follow Up Issue' section containing a table with columns for PAG Code, Task Name, Issue Date, and Due Date. The table lists several 'Incomplete Application Form' tasks with issue dates ranging from 2021-03-05 to 2021-03-09. At the bottom of the page, there is a dark blue footer with the contact phone number (852) 2788 5958 and a link to the Privacy Policy.

1. For completion by every applicant, Personal particulars of applicants/inventors are required for the processing of the application and related purposes under the Patent Application Grant (PAG). The information provided will be disclosed to the implementation agent of the scheme or other parties in confidence for assessment/processing purposes. Applicants have the right to request access to or correction of personal data provided in the application. Such request may be made to the Innovation and Technology Commission by telephone at 3655 5678 or fax at 2957 8726.
2. Applicant under the age of 18 will require a Guarantee from his/her parent/guardian. A copy of the Guarantee can be obtained from the Innovation and Technology Commission or the Hong Kong Productivity Council.
3. For individual applicant, this application form should be submitted together with **one photocopy of HKID card**.
4. For applicant company, this application form should be submitted together with **one photocopy each of the Certificate of Incorporation, valid Business Registration Certificate, and Incorporation Form (Form NNCT) or latest Annual Return (Form NAR1) filed with the Companies Registry**.
5. Applicant should provide **direct** contact information including the **address proof**. Applicant should **inform the Innovation and Technology Commission immediately in writing of any change of the particulars provided above**. Correspondences sent to the mailing address provided would be deemed to have been received by the individual applicant/applicant company. For applicant company, please fill in the address of registered office in Hong Kong.

APPLICATION FOR FUNDING SUPPORT UNDER THE PATENT APPLICATION GRANT

Part 4 : Declaration

I, the undersigned, also the individual applicant of this application/the shareholder of the applicant company/authorised signatory of the applicant company, hereby declare that **I/my company have/has NEVER owned any patents in any countries or territories before and have/has NOT received any funding from the Patent Application Grant (PAG)**. I also declare that the information provided in this application is true and correct to the best of my understanding. **I have read over and fully understood and acknowledged the following THREE pages of declaration and the TWO Annexes to this form:**

1. I/my company have/has the ownership of the invention as mentioned in this application and thus the patent application right of the invention.
2. I/my company am/is fully responsible for the safety of the invention referred to in this application and will ensure that any relevant legislative/regulatory requirements have been complied with when the invention is put into use.
3. Hong Kong Productivity Council (HKPC) is the implementation agent of the PAG. My application will be processed by HKPC or any other implementation agent as may be assigned by the Innovation and Technology Commission (ITC).
4. The implementation agent will conduct a patent search-cum-technical assessment on my application to ascertain my eligibility for the PAG and to assess whether the invention has a reasonable chance to obtain an invention patent. This is one of the major criteria for receiving funding support under the PAG Scheme. In the event that I/my company need(s) to appoint a patent agent to provide third party advice on the patentability of the invention, the patent agent so appointed should meet the eligibility requirements set out in the prevailing "Guide for Patent Agents" issued by the implementation agent. To ensure the impartiality of patentability advice, the patent agent providing the patentability advice should have no direct or indirect relationship/association with the patent agent to be appointed to handle the patent application matters after approval of the PAG application.
5. The fee charged by HKPC for the direct cost of a typical patent search-cum-technical assessment is approximately in the range of HK\$2,500 - HK\$6,000 depending on the complexity of the search and assessment. It may be higher if third party advice is required to assess the patentability of the invention. The cost of a typical third party advice report is around HK\$4,500.
6. Not all inventions that are patentable will be funded by the PAG. Inventions that ITC considers as not containing technology element or not susceptible of industrial application will **not** be supported by the PAG.
7. I/my company will pay the direct expenses required for patent search-cum-technical assessment to the implementation agent in advance, which covers costs of conducting assignee search and any additional amount as may be requested by the implementation agent, such as the direct costs of conducting patent search or seeking third party advice, or else my application will be deemed to be withdrawn. The patent search-cum-technical assessment fee is non-refundable and will only be covered by the PAG if my application is approved. I/my company will have to be fully responsible for the patent search-cum-technical assessment fee if the application is subsequently rejected, withdrawn or terminated.
8. Based on the result of the patent search-cum-technical assessment conducted by the implementation agent, ITC will inform me of the result of my/my company's application. Nevertheless, ITC reserves the right to reject any applications regardless of the patentability of the invention. The decision of ITC on this application shall be final.
9. ITC and/or the implementation agent may contact me/the contact person mentioned in Part I/the inventor(s) direct/in person to seek additional information/clarification relating to my/my company's application. Inventor(s) is/are required to attend a **face-to-face interview** conducted by the implementation agent in Hong Kong for assessing the patentability and technical feasibility of the invention. Failure to respond to such requests from ITC or the implementation agent will result in the suspension of processing of this application.
10. I/my company shall promptly provide information or clarifications to address the questions raised by the implementation agent or ITC. If I/my company fails to respond or provide relevant information within two months from the date of issue of the second reminder notification by the implementation agent, it will be considered that I/my company am/is no longer interested in pursuing the application and the application is deemed to be withdrawn.
11. If my/my company's application is approved, ITC will provide a grant of not more than HK\$250,000 or 90% of the sum of the total direct cost of the patent application(s) (including the direct cost for patent search-cum-technical assessment), whichever is the lower. Funds will only be released to the implementation agent through which the patent application(s) is/are processed. The PAG may **not** be sufficient to cover the patent application expenses, and I/my company have/has to bear the remaining balance.
12. The PAG will be used to cover the cost for patent search-cum-technical assessment, as well as other direct costs involved in the patent application process, such as attorney fees, consultant fees and filing of patent application(s). Any costs incurred (including filing of any patent applications by the applicant) before the date of approval of the PAG application will **not** be reimbursed from the grant apart from the fee of patent search-cum-technical assessment mentioned above. The renewal fee of granted patents will also **not** be covered by the PAG.
13. To ensure that sufficient funding is available for the completion of at least one patent registration, a portion of the PAG funding (\$70,000) will be reserved for covering expenses to be incurred in the procedure(s) after the filing of patent application(s) to patent office(s), i.e. the post-filing stage⁸ of patent application.
14. If my/my company's application is approved, I/my company have/has to appoint patent agent(s) meeting the eligibility requirements set out in the prevailing "Guide for Patent Agents" issued by the implementation agent to handle the patent application(s), but ITC or the implementation agent may reject the patent agent(s) so appointed if ITC or the implementation agent is not satisfied with the qualification or expertise of the patent agent in handling patent applications.
15. (For individual applicant/applicant company who has already filed patent application(s) with patent office(s)) ITC and the implementation agent will **not** give priority treatment to any applications irrespective of whatever priority deadlines that may have been imposed by the relevant patent office(s). ITC and the implementation agent will **not** bear any responsibility arising from such priority deadlines.
16. The PAG is non-transferable and will be valid for **three years** from the date of approval of the application. I/my company will inform the implementation agent within two months after the patent whose registration is funded by the PAG is successfully registered. ITC and/or the implementation agent may contact me or the contact person mentioned in Part I direct to enquire the progress/outcome of the registration of patent(s) funded by the PAG within two years after the expiry of the grant.

APPLICATION FOR FUNDING SUPPORT UNDER THE PATENT APPLICATION GRANT

Part 5 : Preview

The screenshot shows a document viewer interface. On the left, there is a thumbnail of the document with a blue border and the number '1' below it. On the right, the document content is displayed. The document is titled 'APPLICATION FOR FUNDING SUPPORT UNDER THE PATENT APPLICATION GRANT'. It includes the logo of the Innovation and Technology Commission (ITC) and the Government of the Hong Kong Special Administrative Region. The form is divided into sections: 'PART I - APPLICANT INFORMATION' and 'PART II - APPLICANT INFORMATION'. The 'PART I' section includes fields for 'Name in English', 'Name in Chinese', 'Type' (Individual or Company), 'Mailing Address in Hong Kong', 'Telephone No.', 'Mobile No.', 'Fax No.', and 'Email address'. The 'PART II' section includes fields for 'Name', 'Position held', 'Telephone No.', and 'Mobile No.'. The document is dated 'The ITC 1 April 2020'.

Privacy Policy

7.1. Save Application Form

1. When the application form is open, click the “Save” button at the bottom toolbar.
2. You can also click “Next” or “Back” button at the bottom of the application form and the inputted data will be saved.

17. Applications of which the subject invention has been granted patents or any kind in any countries or territories to any parties before will **not** be accepted by PAG, regardless of whether the PAG applicant is the owner of the granted patent.

18. When two or more separate PAG applications involve the same invention in all material aspects (having considered all materials submitted by these separate applications during PAG assessment and/or prosecution of patent application), only one of the PAG applications will be accepted. ITC and the implementation agent have the right to let all parties know their existence. Normally, the PAG application first received by ITC or the implementation agent will be accepted and the other PAG application(s) will be rejected. Likewise, if a new PAG application involves the same invention (in all material aspects) as another application already funded by the PAG (having considered all materials submitted by the two applications during PAG assessment and/or prosecution of patent application), the new application will **not** be accepted. The decision of ITC on this application shall be final.

19. For any patent application that has already been funded by PAG, the divisional / continuation-in-part patent application based on the said patent application will **not** be funded by other separate PAG application(s). The decision of ITC on this PAG application shall be final.

20. (For individual applicant) I declare that I am the sole inventor / one of the joint inventors of the subject invention in this application form. I understand that I may be required to prove to the satisfaction of ITC or the implementation agent that the invention is actually invented solely by myself or jointly with the other inventors. The decision of ITC on this application shall be final.

21. (For company applicant) I declare that the sole inventor or each of the joint inventors of the subject invention in this application form is a directly related party to my company, e.g. owner, shareholder, director, or staff. I understand that my company may be required to prove to the satisfaction of ITC or the implementation agent that the invention is actually invented by the inventors listed in the form and they all have direct relationship to my company. The decision of ITC on this application shall be final.

22. (For individual applicants/applicant company who has submitted more than one application) If my/my company's application is subsequently approved by ITC, any other applications being processed would be deemed to be withdrawn and I/my company will have to pay for any patent search-cum-technical assessment fee that has been incurred in respect of the other applications.

23. Costs relating to patent application for the invention contained in my application will **not** be covered by other sources of government funding e.g. Innovation and Technology Support Programme or University-Industry Collaboration Programme, Partnership Research Programme, or Dedicated Fund on Branding, Upgrading and Domestic Sales etc. Likewise, costs already covered by other sources of government funding will **not** be funded by PAG.

24. I/my company will **not** publicise the funding support obtained under the PAG without prior consent from ITC.

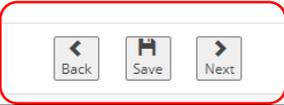

25. I/my company will observe the Prevention of Bribery Ordinance (Cap. 201) ("PBO") and shall procure that I/my company's directors, employees, agents, suppliers, consultants, contractors and other personnel who are in any way involved in the application shall not offer to or solicit or accept from any person any advantages, including money, gifts, loan etc. (as defined in the PBO) in relation to the application. ITC shall be entitled to withhold, suspend and/or terminate the application immediately, cancel the funding approved, and recover the PAG if I/my company commits an offence under the PBO in relation to the application, and I/my company shall be held liable for any loss or damages the Government of the Hong Kong Special Administrative Region may thereby sustain.

26. The Government of the Hong Kong Special Administrative Region reserves the right to **recover the PAG** if I/my company have/has provided **false declaration or have/has acted improperly or dishonestly in this application.**

27. The information provided in connection with this application will be disclosed to the implementation agent and/or other third parties (including patent attorneys) in confidence for assessment/processing purposes. ITC and the implementation agent will **not** be held liable for unauthorised disclosure of any such information or any unauthorised disclosure of the same by third parties to whom the information has been disclosed.

8. Filing stage of patent application involves preparation of patent specification and filing of the patent application(s) to patent office(s). Post-filing stage refers to all the procedures after the filing stage of patent application. Applicants are advised to plan the use of PAG funding after the approval of the PAG application and seek clarifications from the implementation agent in case of doubts.

I/We read and confirm the declaration.

A toolbar containing three buttons: 'Back' with a left-pointing arrow, 'Save' with a floppy disk icon, and 'Next' with a right-pointing arrow. The buttons are enclosed in a red rounded rectangular border.

2.3. Re-open Application Form

1. Click "MY APPLICATION" link at the top menu.
2. Click the draft application form at Follow Up Issue.

The screenshot displays the 'Patent Application Grant' user interface. At the top, a navigation menu includes 'INTRODUCTION', 'FAQ', 'CONTACT US', '簡 章', 'MY APPLICATIONS', and 'LOG OUT'. The 'MY APPLICATIONS' link is highlighted with a red box and a red arrow pointing to it, with the text '1. Click My Application' next to it. Below the menu is an 'Application Timeline' section with a progress bar and a 'Today' marker. A 'Terms & Conditions' button is also visible. The main content area features two cards: 'My Application Records' with a 'View' button and 'New Application' with an 'Add' button. Below this is a 'Follow Up Issue' section containing a table of application records. The first row of the table is highlighted with a red box, and a red arrow points to it with the text '2. Open Application Form'.
